Fortune NEXT 7.0 Enterprise

The Award-Winning All-In-One
Hotel ERP Solution

An all-in-one hotel ERP for independent hotels, group and chain hotels, resorts, boutique hotels, clubs, and restaurants enabling simple and more efficient operations across all the departments of a hospitality organisation.

New & Improved

FortuneNext 7.0 brings an array of new and improved features to ensure the best experience for our valued customers.

Simplified IT maintenance
All PMS files are bundled as one file allowing easy installation, maintenance, and backups.

Enhanced data security
Compatible with the latest PADSS – 3.2 version along with a new algorithm for credit card number encryption.

Preferred screen resolutions
Auto-adjustable main menu screen based on screen resolutions and screen colour changes.

Easy revenue classification
Detailed retrieval of financial data with market segment-wise room revenue linking for front office sales.

Detailed GST reconciliation
GST Reconciliation with more detailed information which can be drilled down to the transaction level.

Crystal reporting facility
Crystal report can be generated for Parameter and Master Checklist across all modules.

Instant global support
Built-in Live-Chat feature facilitating direct, 24/7 communication with the IDS support team.
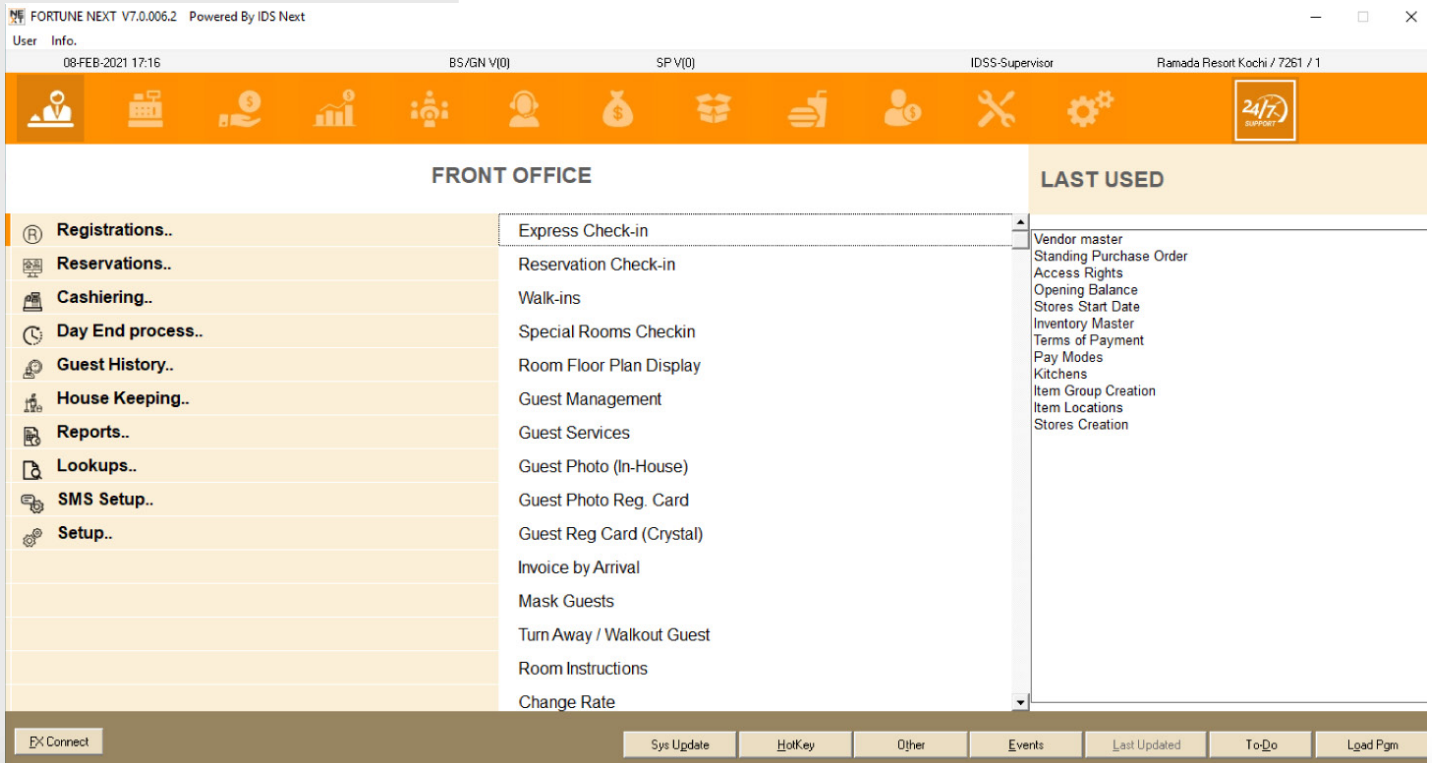

ISO codes included
ISO country and state codes made default to avoid report discrepancies.

Modules

With 13 modules, FortuneNEXT 7.0 Enterprise is ideal for large independent hotels, group and chain hotels and resorts and boutique hotels.

Front Office

▸ Room type reservation and rack based reservation

▸ User-configurable floor plan with options to carry out all FO activities from the screen

▸ Faster processes through Drag and Drop check-in and multiple room check-out

▸ Group handling from reservations to checkout and option to view history by group name

▸ Easy employee scheduling and room cleaning assignments in the Housekeeping sub-module

▸ Housekeeping inventory module to record and track issue of items to rooms and common areas

▸ Laundry management and billing

▸ Concierge sub-module to manage left luggage, parcels and deliveries, ticket registrations and valet parking

▸ Integrated SMS alert module to send out alerts on key information including guest activities and events

▸ Quick Booking, with complete reservation management

▸ Single Room Status window to manage all front desk operations

▸ Night auditing and several MIS/Flash reports

Point Of Sale

- Contains several outlet types including fine dining, fast food, room service, shop module, and delivery

- Confectionary sales

- Complete integration with FO for billing and room service

- Touch POS and Tablet enabled for order generation and billing

- User configurable table layout options to handle restaurant operations from table layout screen

- Automatic happy hour switchover and sales promotions inclusion
